

Information

ETN-21C - Series

Micro Hook

Characteristics

- Easy tape is a continuously moulded hook tape. It is made by the only production line in south-eastern Asia. The quality is stable.
- There are many widths available. The maximum width is 30cm. It is able to be sewn, glued and slitted.
- The moulded hook is micro-thin. There are more than 900 hooks in a square inch.
The closure of Easy Tape with loop tape is strong. But, Easy Tape has smaller damage on the loop tape. It is on sale with special discount now.
- It is durable to attach Easy Tape to hard surface such as metal, ABS, PP, PC, etc.

Availability

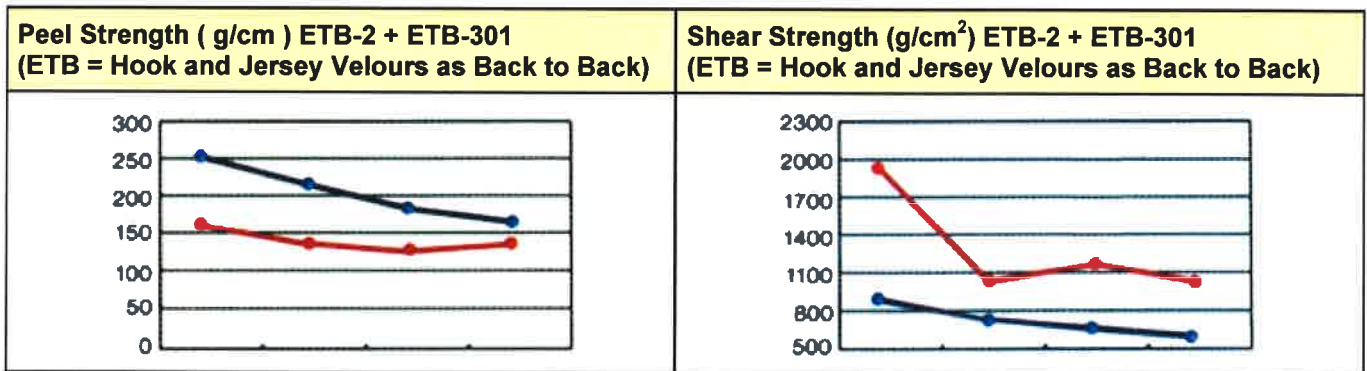

There are only white, black and transparent available now.

Technology

- ET = Easy Tape
- ETN = Easy Tape Nylon (PA)
- ETP = Easy Tape in Polypropylene (PP)
- xxC = Color resistant

Applications

It is suitable for garment, purses, hats/caps, shoes, stationery, toys, medical goods, infant goods, sporting goods, vehicle, decoration, furniture and various kinds of polishing tools.

Shape	Height (mm)	Peel Strength	Shear Strength	Stitch Tear	Average decrease	Water	Laundrying	Mek
